† Happy New Year †

>>> Out Goes 2010

In Comes 2011 <<<

A new year is upon the OKC912Project and it's now just a hair less than two years to the 2012 Presidential Election.

If you groaned, then we need to find a way to recharge our batteries. Our polar opposite in this fight over our American way of life are counting on people like us fading away. We won't because we haven't even come close to restoring our Constitutional values to the system. We've made great strides locally. We're more aware of the problem now than ever before and now we got an idea of what it takes to move a law through the system. If you think about it, you and I know more about this process and how badly it's broken than we did when we first joined up.

Do you recall the fire in your eyes, the energy you had the first day you decided to not just join the 912 Project, but when you learned where the real problems were? If we all knew then what we know today, we would have made a deeper, more powerful impact. Well, we can still do that. We have the knowledge and now we must regain our willpower to step up to the plate again and swing that victory bat at the Progressive agenda.

Consider the fact that we've made some powerful victories at the poles last year and we were still learning the process. Next time voters head to the poles, we're going to do more than seal a few good victories. We're going to restore America!

Senate Democrats Poised for Power Grab

Senate Democrats are going to be working over the Christmas break to deliver a lump of coal to the American people in the form of a radical changing of the Senate's rules. This is a naked power grab by liberals in the Senate pure and simple. [Click here to read the rest of this important article.](#)

China's Aircraft Carrier Killer

The Associated Press reports that China has achieved "initial operational capability" on the Dong Feng 21D missile system – a weapon that could be launched from shore, to take out large, slow-moving ships. Either they're planning to take out Hugh Hefner's yacht during his honeymoon, or they're developing the capability to destroy aircraft carriers. [The rest of this article can be found here.](#)

The Immortal Tyranny Of Climate Change

Thomas Sowell wrote yesterday of the effort to secretly re-introduce the ObamaCare "death panels" through regulation as an "end run around the Constitution." Here's another one, and it's even bigger: a year after the Climagate scandal decisively exposed the fraud of global warming, and acting in the face of a new Republican House that does not look kindly on climate change flim-flams, the Obama Administration is preparing to enforce their ideology through EPA greenhouse gas regulations. [More on this subject can be found here.](#)

Please Stop "Helping" Us

Last year, Congress passed the Credit Card Accountability, Responsibility and Disclosure (CARD) Act. It was supposed to really end the alleged abuses perpetrated by the credit card companies. The law forbids some penalties and interest-rate increases on existing balances. It is one of President Obama's proudest achievements. "Enough's enough," he said. "It's time for strong, reliable protection for our consumers." Reform, he said, would not come at the expense of honest businesses. "Unless your business model depends on cutting corners or bilking your customers, you've got nothing to fear." [Read the rest of this article by clicking here.](#)

Obamacare's Medicine Cabinet Tax Hits Jan. 1

Due to an Obamacare provision taking effect on Jan. 1, Americans will no longer be able to use their flexible spending account (FSA) and health savings account (HSA) pre-tax dollars to purchase non-prescription, over-the-counter medicines (with the exception of insulin). [You can read the rest of these details by clicking here.](#)

Senators Who Sold Out

With the new Republican power in Washington, it is doubly important to keep a close eye on the doings of GOP senators and congressmen to spot those who are straying from orthodoxy, seduced by power and the insider clubiness that characterizes Washington. [Don't pass this link up as one of our own is mentioned in here.](#)

Dancing With Devils

In United in Hate: The Left's Romance with Tyranny and Terror, Dr. Jamie Glazov, managing editor of Frontpage Magazine, exposes the shocking history of the American Left and its support of a succession of totalitarian killing machines, such as Stalin's Russia, Castro's Cuba, North Vietnam, Mao's China, Sandinista Nicaragua, and now, the vicious ideology of Islamic extremists. The Left's utopian paradises repeatedly result in mass death and suicide instead of the human equality and "social justice" promised. The resulting death count to date is well over 200 million humans and climbing. [Click here to see this long article for yourself. Keep in mind there is a page 2 clicky at the bottom. Thank you Dan Ward for this heads up!](#)

Entrepreneurs Under Attack

Every day, federal, state, and local governments stifle small businesses to privilege well-connected incumbent companies. It's a system of protectionism for influential insiders who don't want competition. Every locality has its share of business moguls who are cozy with politicians. [Click here to read more.](#)

Obama Embraces Death Panel Concept in Medicare Rule

During the stormy debate over his healthcare plan, President Barack Obama promised his program would not "pull the plug on grandma," and Congress dropped plans for death panels and "end of life" counseling that would encourage aged patients from partaking in costly medical procedures. Opponents of Obama's plan, including former vice-presidential candidate Sarah Palin, dubbed such efforts as "death panels" that would encourage euthanasia. But on Dec. 3, the Obama administration seemingly flouted the will of Congress by issuing a new Medicare regulation detailing "voluntary advance care planning" that is to be included during patients' annual checkups. The regulation aimed at the aged "may include advance directives to forgo aggressive life-sustaining treatment," The New York Times reported. [Click here to read the rest of this article.](#)

A Vet Who Knows The Enemy We Face

President Obama this week once again called Islam "a great religion" which has been "distorted" by a small number of "extremists" to justify committing acts of violence against the West. But the Qur'an (or Koran) itself, the holy book of Islam, contains over 100 verses calling for violence against Christians and Jews. To give just one example, Sura 9:5 says, "Slay the idolaters wherever you find them." [Watch this video and read this article and know that somebody out there has the guts to tell the truth! Obama to Appoint Six Without Senate Okay

President Barack Obama will use recess appointments to install six executive branch officials, bypassing Senate confirmation. The appointments include James Cole, his controversial choice for deputy attorney general -- the No. 2 spot at the Justice Department. States Taxing Themselves to Death

High taxes kill states. There can be no better evidence than the 2010 Census. The states that lost House seats because they're shrinking, relative to the nation, had taxes 27 percent higher than the ones that gained seats. [This article details it out and you might not want to pass this one up.](#)

Weekly Words of Liberty

"Against the insidious wiles of foreign influence, (I conjure you to believe me fellow citizens) the jealousy of a free people ought to be constantly awake; since history and experience prove that foreign influence is one of the most baneful foes of Republican Government." --George Washington, Farewell Address, 1796

"It is the madness of folly, to expect mercy from those who have refused to do justice; and even mercy, where conquest is the object, is only a trick of war; the cunning of the fox is as murderous as the violence of the wolf." --Thomas Paine, The American Crisis, No. 1, 1776

"Observe good faith and justice towards all Nations. Cultivate peace and harmony with all." --George Washington, Farewell Address, 1796

"States, like individuals, who observe their engagements, are respected and trusted: while the reverse is the fate of those who pursue an opposite conduct." --Alexander Hamilton, Report on Public Credit, 1790

From The Editor's Desk

The holidays took a *heavy toll* on my news feeds. I groaned when the special folder I have for news items only had 37 messages, and that is counting what Dan Ward passed down the pipe to me this week. Normally there's around 250 to 300 per week (just for that section alone) and I go through them carefully as two completely different worded headings can actually lead to the same article of interest.

I even called my ISP and asked if there was a mail server issue, and for the most part they're honest over there to guys like me. Being an ex-tech myself, I speak their lingo. I was assured all was well, the tech I spoke to even went in and rechecked the DHCP protocols on my static IP to see if they were allowing all traffic through and nothing was in the dump buffer. It was all clear and everything was running smoothly. So it wasn't my ISP.

Because of this, our Newsletter is going to be very slim for the last edition of 2010.
